

Evening of Arts

A dazzling performance by the hip-hop group from Primary School. Photo by Regi Richardet.

Talented musicians from the flute working group.

Don't mess with the taekwando team!

For the first time, an Evening of Arts took place at DSKL, where various extracurricular working groups presented the projects they had created during their first semester.

Alongside the rich and inspiring stage performances from three flute working groups, the theatre group and several dance ensembles, several other groups presented their projects in the school yard as well. There was a photo exhibition organised by the photo working group, artworks from the pottery group and the arts talent promotion team. Students of the taekwondo team gave a demonstration of their expert routines. As proof of their high achievements, a number of wooden boards were smashed.

The evening kicked off with an energetic performance by the Hip-Hop group from the Primary School. An impressive video covering the bridge construction competition in the MINT lessons and the small drama 'Class Trip', which was independently staged by students of the theatre group, also wowed the audience.

Bringing the evening to a close, the flute group "Profis" enchanted us with Mozart's Nocturnal Serenade, followed by the dance ensemble's highlight of the evening with a performance on Thumbs by Sabrina Carpenter. Following these wonderful events, many of the guests remained on the school yard to enthusiastically discuss the many inspiring performances and presentations whilst enjoying the delicacies of the baking group with drinks sold by students of Year 11.
